“My experience at El Lago del Bosque has been nothing short of life changing. Of course, the idea that I would be leaving my family, friends, and Internet connection for two weeks was, well, terrifying, but upon arrival at the camp I was immediately comforted by upbeat Spanish music and super friendly staff. I knew right away that the Concordia Language Villages meant business- they truly wanted you to experience the language.”

Living the language through immersion:

Voleibol

Canoas

Bailando

Tenis de mesa
“If I had to pick my favorite part of the experience, I wouldn’t be able to. Every single activity, from eating cultural foods to the times we spent simply walking around the village, enriched my knowledge and fostered relationships that are unforgettable.”

“I have developed a tremendous amount of comfort with listening, speaking, and writing, and my vocabulary has expanded. Further, the comfort and enjoyment I receive from my Spanish classes has fueled my desire to continue pursuing my studies in the language and culture when I reach the university level.”

“I was able to gain a lot of conversational practice, which has helped me to better my Spanish speaking skills and helped me increase my fluency in the language.”

NSE Scholarship Recipients Attend Concordia Language Villages
